It's all in the detail. So sleek is the Reaction Hybrid's PowerTube frame design, you'll barely notice the high-capacity Bosch battery and sophisticated, fourth-generation CX motor. But you'll definitely recognise the power. Agile Ride Geometry and a 1.5in head tube deliver impeccable, confidence-inspiring handling. Internally routed cables reduce maintenance and help keep gear shifts clean and precise. The Trapeze frame option and full Size Split breakdown mean there's a Reaction Hybrid to suit everyone. There's even routing for a stealth dropper post upgrade, so your Reaction Hybrid can stay with you as your riding skills develop.

Few bikes can do more to expand your riding horizons than a Bosch-equipped e-bike hardtail. The Reaction Hybrid ONE combines our svelte PowerTube design with Bosch's powerful fourth-generation CX drive unit and the reliability of Shimano's slick-shifting Deore 1x10 transmission for smooth, almost effortless pedal assistance. There's a 100mm Suntour suspension fork for better comfort and control on road and trail alike, and strong all-weather Shimano hydraulic disc brakes so you're always in control. It's all you need for miles of riding smiles.
